

# INTOCERAMICS

Prices Effective  
29 June 2022

<b>INTOCERAMICS AGGREGATE TESTING SERVICES</b>	
<b>Material Preparation/Analytical for Testing</b>	
Separation and Washing as needed (per hour)	\$125.00
Crushing as needed (per hour)	\$125.00
Composite Sieve Analysis	\$200.00
Specific Gravity by Helium Pycnometry	\$200.00
Mineralogy by X-Ray Diffraction-(XRF and LOI Required)	\$265.00
Chemistry by Quantitative X-Ray Fluorescence (XRF)	\$150.00
Loss on Ignition (LOI)	\$55.00
Other testing including concrete mix testing	On request
<b>Dense Aggregate Testing ASTM C33 and/or TxDot Item 421</b>	
LA Abrasion Weight Loss	\$435.00
Micro-Deval Weight Loss	\$350.00
Magnesium Sulfate Soundness	\$815.00
Gradation	\$310.00
Deleterious Materials	\$155.00
Loss by Decantation	\$155.00
Clay Lumps	\$155.00
Lightweight Particles	\$185.00
Unit Weight (Bulk Density)	\$95.00
<b>Lightweight Aggregate Testing ASTM C330</b>	
Organic Impurities (Color change)	\$205.00
Staining (Stain Index)	\$470.00
Loss on Ignition (LOI)	\$55.00
Clay Lumps and Friable Matter	\$155.00
Gradation per sample	\$310.00
Concrete mix testing for strength/shrinkage/popouts/grading/freeze thaw	On request
Package Discounts Available for Multiple Samples - Prices subject to change without notice
